Books ... What Is a Family Nurse Practitioner? A family nurse practitioner, or FNP, is a highly educated registered nurse who provides primary or specialty care for patients of all ages. These advanced-practice registered nurses typically work under a physician but with a high degree of autonomy, and in some cases, have their own private practices. They provide most of the same services a doctor provides, and are the primary source of care for many patients. Becoming a Family Nurse Practitioner (FNP ... - RN Programs The nurse practitioner should not function as an independent health practitioner. The AAFP position is that the nurse practitioner should only function in an integrated practice arrangement

advanced pharmacology.

It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' texbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.
