Irritability one of the most common reasons youth referred for psychiatric evaluation and care (Peterson et al., 1996) Irritability adult impairment (Copeland et al., 2014) Academic problems. Poverty. Suicidality. DSM-5 created Disruptive Mood Dysregulation Disorder (DMDD) in 2013 CBT for DMDD Measuring Homework Problems. Children with ADHD often experience difficulties with at least one homework-related behavior that ultimately results in poor homework performance (Power et al., 2006). For example, a child may record homework assignments inaccurately or not at all, mismanage materials, be off-task during homework completion, or have a combination of these difficulties. Assessing Homework Problems in Children with ADHD ... About homework completion, the amount of homework that students complete seems to be positively related to academic achievement (Cooper et al., 1998; Cooper et al., 2001; Cooper et al., 2006; Núñez et al., 2013, 2015). However, there are significant discrepancies about the relationship between time spent on homework and academic achievement. Frontiers | Homework Involvement and Academic Achievement

... Introduction. Homework is defined as a set of school tasks assigned by teachers to be completed by students out of school (Cooper, 2001). Several studies have showed the positive impact of this instructional tool to enhance students' school performance and develop study skills, self-regulation, school engagement, discipline, and responsibility (e.g., Cooper et al., 2006; Rosário et al., 2009 ... The effects of teachers' homework follow-up practices on ... The gut microbiota is a critical factor regulating mammalian metabolism. The host immune system, in turn, can shape the microbiome, in part via immunoglobulin A (IgA) antibodies. Petersen et al. report that mice defective in T follicular helper cell development and gut IgA production show hallmarks of metabolic syndrome with age (see the Perspective by Wang and Hooper). T cell-mediated regulation of the microbiota protects ... The authors intended to (a) identify the association between gender or grade level and teachers' homework (HW) feedback and (b) examine the relationship between teachers' HW feedback, HW-related behaviors (e.g., amount of HW completed), and academic achievement. Four hundred fifty-four students (Grades 5–12) participated in this study.
