interface between governance and management. This interface frequently creates difficulties in construction projects due to unclear roles, responsibilities and expectations of both the project owner and the executing party. With a more explicit and well-defined interface, both governance and management may benefit.

## **Governance Operating Model - A Key Enabler for Business**

Corporate Governance is the system that guides and controls an organisation. Find out more about corporate governance at the Northern Ireland Housing Executive.

## **The Housing Executive - Overview of Governance**

Interface management is the essence of the project manager's role: To plan, coordinate, and control the work of others participating on a project team. This article examines how project managers can most effectively practice interface management. In doing so, it lists seven principles of interface management and discusses the application of organizational theory to project management

## **Bing: Housing As Governance Interfaces Between**

Housing as a system / network: understanding housing provision as a network of interrelated organisational activities which both respond to and help to shape the changing social, economic, environmental, technological and political context in which housing bodies operate. The application of theoretical frameworks such as policy and governance networks, complex adaptive systems and organisational learning generate new insights into the key factors and processes that affect organisational

## **Housing As Governance Interfaces Between Local Government**

A governance operating model defines the methods, structure and interfaces through which governance is mobilised. It is an imperative for transformation programs and enterprise governance boards to enhance their control and enable senior management to implement initiatives. Some of the typical objectives of the governance operating model are to:

## **DepositOnce: Housing as Governance -Interfaces between**

Indeed, weak interfaces between government and governance lead to deadlocks in the interactive process, as was the case in our research. We are fully aware that care must be taken in generalizing the insights from this case study as it is simply one case in one specific country, The Netherlands, and action research dictates that findings are local.

## **(PDF) Housing Concept and Analysis of Housing Classification**

The emergence of oscillating structures and the informalisation of horizontal governance represent new challenges for local decision-making processes. Co-operation and action-oriented approaches in housing seemingly need to be based on a more detailed understanding of the complex interfaces, which go far beyond the conventional ideal of partnerships and participation between sectors.
