RELATIONS FUNCTIONS A relation is a rule that relates values from a set of values called the domain to a second set of values called the range. A function is a relation where each element in the domain is related to only one value in the range by some rule. GENERAL MATHEMATICS Module 1: Review on Functions This Unit focuses on the mathematics used every day in our communities to measure, compare and present information numerically. There is an emphasis on the development of real numbers and their everyday usage in learning mathematics. This is the first unit in the series of Mathematics B for Grade 11. As you go along
