Participatory Land Use Planning In PLUP is a process that results in a land-use plan or several land-use plans for a given goal, objective or set of objectives. It should be carried out as an integral part of local development planning. Participatory land-use planning - International Fund for ... Participatory Land Use Planning (PLUP) is a rights-based approach ensuring inclusive and gender-responsive land governance, especially for those whose rights to land are not fully acknowledged. All over the world, indigenous groups, rural communities, small-scale farmers, pastoralists, women and young people experience difficulties in accessing and using

land and securing land rights. Participatory Land Use Planning (PLUP) | Both ENDS Participatory land use planning: Handbook and Toolbox. At the end of 2009, a manual for Participatory Land Use Planning (PLUP) was published by the Ministry of Agriculture and Forestry (MAF) and the National Land Management Authority (NLMA) to provide a common basis for PLUP implementation in Lao PDR. This manual determined the important principles of PLUP implementation, especially in relation to community participation in the process. Participatory land use planning: Handbook and Toolbox ... participatory land use planning, in which communities are given a voice and become ‘land use negotiators’. The specific objectives of the PLUP

are to: (a) increase knowledge and skills in participatory land use planning of two communities in Monze district by the end of 2014; (b) plan and map land uses

Participatory Land Use Planning and Mapping (PLUP ... Participatory Land Use Planning is the systematic assessment of physical, social and economic factors in such a way as to encourage and assist land users in selecting options that increase their productivity, are sustainable, and meet the needs of society¹.

Participatory Land Use Planning Workshop Proceedings (PLUP) By using participatory land use planning, it is possible to balance the need to secure local tenure with the need to maintain flexibility and mobility across larger areas according to traditional

adaptive management practices in semi-arid environments. It can also strengthen the voice of local groups in the face of external pressures. Participatory Land Use Planning as a Tool for Community ... Participatory land-use planning (PLUP) can help address this. PLUP refers to a type of land-use planning that is people-centred and bottom-up, incorporates input from all relevant stakeholders and recognizes locally specific socio-cultural, economic and environmental conditions (see, e.g. Wehrmann, 2011). Formalising participatory land-use planning introduce and institutionalise participatory land use planning and management at the village level, so that villagers can use their land and other natural

resources in a way that leads to an improved and sustainable agricultural production, and better living conditions for all- stakeholders, including women. Guidelines for Participatory Village Land Use Management Lengths of growing periods severely govern the production capacity of an area/or a unit of land. In order to design a sustainable participatory local level land use planning for an area or unit of land, one has to analyze the records of the climatic elements so as to determine the existing and/or available LGP. Local Level Participatory Land Use Planning Manual A tool to scale-up resilience. • Community-based Participatory Planning (CBPP) is a practical and easy-to-use planning tool for vulnerable communities,

government extension staff and cooperating partners. It is a two- to five-day field exercise used to develop a three-year programme plan. • Through CBPP, food-insecure communities are placed in the driver's seat of planning, while contributing to their own resilience-building efforts and development. Part 3: Community-based Participatory Planning Participatory planning is an urban planning paradigm that emphasizes involving the entire community in the strategic and management processes of urban planning; or, community-level planning processes, urban or rural. It is often considered as part of community development. Participatory planning aims to harmonize views among all of its participants as well as prevent conflict

between opposing parties. In addition, marginalized groups have an opportunity to participate in the planning process. Participatory planning - Wikipedia Participatory Land Use Planning (PLUP) This FAO Working Paper is the synthesis of a workshop on Participatory Land Use Planning (PLUP) and provides guidelines for facilitators of similar workshops on the PLUP theme. PLUP is defined as the systematic assessment of physical, social and economic factors in such a way as to encourage and assist land users in selecting options that increase their productivity, are sustainable, and meet the needs of society.
